

INDECOM NAME

NEW Rho 600

APPLICATIONS

A distinctive multi-purpose chair. The characteristic seat and back can be combined with numerous different frames in order to meet applications ranging from visitor, lobby/waiting, meeting and congress/conference to restaurant, healthcare and residential/dining chair purposes.

TYPES

4-Leg Stacker (with and without arms)
 Sled Base Stacker (with and without arms)
 4-Leg Beech laminate frame (with and without arms)
 Cantilever U-version + STACKABLE Cantilever X-version
 "spider" frame (with and without arms)
 Beam (several seats and/or table tops on one metal frame)

ARM STYLES

Several different types of arm for each of the rho 600 models.

STANDARD FEATURES

All Rho 600 models use a thermoplastic seat and back.
 Available in exposed plastic, upholstered seat and/or back pad and fully upholstered.
 Depending on the rho 600 model, frames are made of metal or beech wood.

STANDARDS COMPLIANCE

Rho 600 meets or exceeds ANSI/BIFMA x5.1 and ISO 7173 durability and safety standards.

ENVIRONMENT

Indecom is committed to protecting the environment.
 Rho 600 is manufactured using recyclable materials.
